What is this report telling me?

- Provides a list of Items that are not reporting sales in the TA that fall within a high RM category sales percentile defined by you.

- 1) Define your desired RM category sales percentile threshold
- 2) This is the percentile cutoff amount which RM sales will be evaluated based on your selections.
- 3) An exportable table that highlights opportunity items within the TA that fall within the defined RM category percentile. This will also rank the TA item sales against the RM category and Total US category.
- 4) the count of opportunity items identified.
- 5) truncated list opportunity items with comparisons.
